

## PMWeb Asset Explorer & Work Order Management

The screenshot displays the PMWeb Asset Explorer interface. On the left is a tree view of assets, including 'Hotels', 'Offices', and 'Bridges'. The main area shows details for 'NP1 - Nevada Palace'. The 'Details' tab is active, showing fields for Location ID (NP1), Name (Nevada Palace), Address (600 Main st, Las Vegas, NV), and Specification (Hotel). A table below lists specifications: Area (50000 sqft), No of floors (10), and No of buildings (2). A large image of the Nevada Palace building is shown on the right, with smaller thumbnails below it.

- Asset Management
- Work Order Management
- Preventive Maintenance
- Resource Management
- Move in / Move out
- Dispatching Board
- Inventory Control

### Dispatching Board

The screenshot shows the Dispatching Board interface for Friday, July 24, 2009. It features a Gantt chart with work orders for various locations: Nevada Palace, Paris, Royal Resort, Travelodge, Harvard Business School, Metro West, and UPENN. The chart shows tasks like '088-Mowing', '055-Clean Gutters', and '115-Collect Keys' with their respective durations and assigned personnel (Adrian, Allan, Andrew).

### Preventive Maintenance

The screenshot displays the Preventive Maintenance interface for work order '000038-Nevada Palace-2'. It includes fields for Location (NP1 - Nevada Palace), Description (2), Status (Draft), and Submitted By. A table lists assets: Building 1, Ground Floor, space 5, Pump; Building 1, Lobby Level, space 5; and Building 1, Ground Floor, Reception. The interface also shows dates for Reported (7/18/2009), Estimated Start (7/18/2009), and Estimated Finish (7/18/2009).
